PROFILE

As a pragmatic and diverse Web3.0 Developer. I aspire to merge my skills comprehensively, blending tenacity and deftness to holistically achieve my goals with persistence and adroitness, while avoiding lethargic approaches and maintaining an eclectic mindset in my work

EDUCATION

2019 – present
Pune, India

Keystone School of Engineering

Bachelors' of Engineering: Computer Engineering

- Secured 8.3 CGPA
- Aspired to pursue more about Web Development and Blockchain through advanced classes in an advanced developer course
- Composed an article on how new digital trends can help students make their concentrating on more powerful and effective.

2018 – 2019
Pune, India

Anglo Urdu Boys High School & Junior College

Higher Secondary School

PROJECTS

Dec 2022 – Apr 2023

HirEx

Smart Hiring system aims revolutionizing the hiring process by automating candidate evaluation, providing objective assessments, and streamlining recruitment procedures.

- Developed an innovative recruitment system integrating AI, computer vision, and NLP technologies.
- Implemented speech-to-text conversion for efficient transcription and analysis of candidates' interview responses.
- Integrated facial emotion recognition to assess non-verbal communication and evaluate candidates' emotional expressions.
- Incorporated tone analysis to analyze linguistic aspects and sentiment in candidates' spoken answers for enhanced evaluation.

Sep 2022 – Feb 2023

ConnectingDots

- Developed a dynamic and user-friendly website for a mentor and mentee program at my college, facilitating effective communication and fostering meaningful connections.
- Created a comprehensive profile system that enables mentors and mentees to showcase their backgrounds, skills, and interests, optimizing the matching process for compatible pairs.
- Incorporated a calendar feature for scheduling meetings and appointments, streamlining coordination and ensuring efficient time management for mentors and mentees.
